

# GREENLINE | 48 COUPE

DISCOVER WHAT BEING INDEPENDENT TRULY MEANS

In yachting this means not being dependent on marinas, water supplies and mostly electricity. The ability to stay at anchor as long as you like.

The 48 Coupe is equipped with staggering 2,4 kW solar panels on the roof as standard, which is equal to a small generator output. Having continuous power onboard to run all the appliances in silence, without using any fossil fuels, not only is much friendlier to the environment, but also significantly increases the quality of living onboard.

Open galley

Solar panels as standard

Generator	2x10 kW
Electric max speed	6,5 kts
Electric cruising speed	5 kts
Electric sailing range	up to 30 Nm
H-Drive Battery capacity optional	40 or 80 kWh
Solar panels	2,4 kW
Battery capacity standard (AGM) 12V	7,2 kWh
CE cat.	B
Design	J&J Design

\* Displacements are calculated with 50% fuel and water plus liferaft but with no optional equipment or other gear fitted.

\*\* Depending on selected equipment and propulsion.

\*\*\* Maximum speeds will vary depending on cleanliness of hull, condition of stern gear, craft load, water and air temperatures, sea conditions and other factors. Speed estimates are therefore given in good faith but without any warranty or liability on the part of SVP Yachts.
