PERFORMANCE AND COMFORT

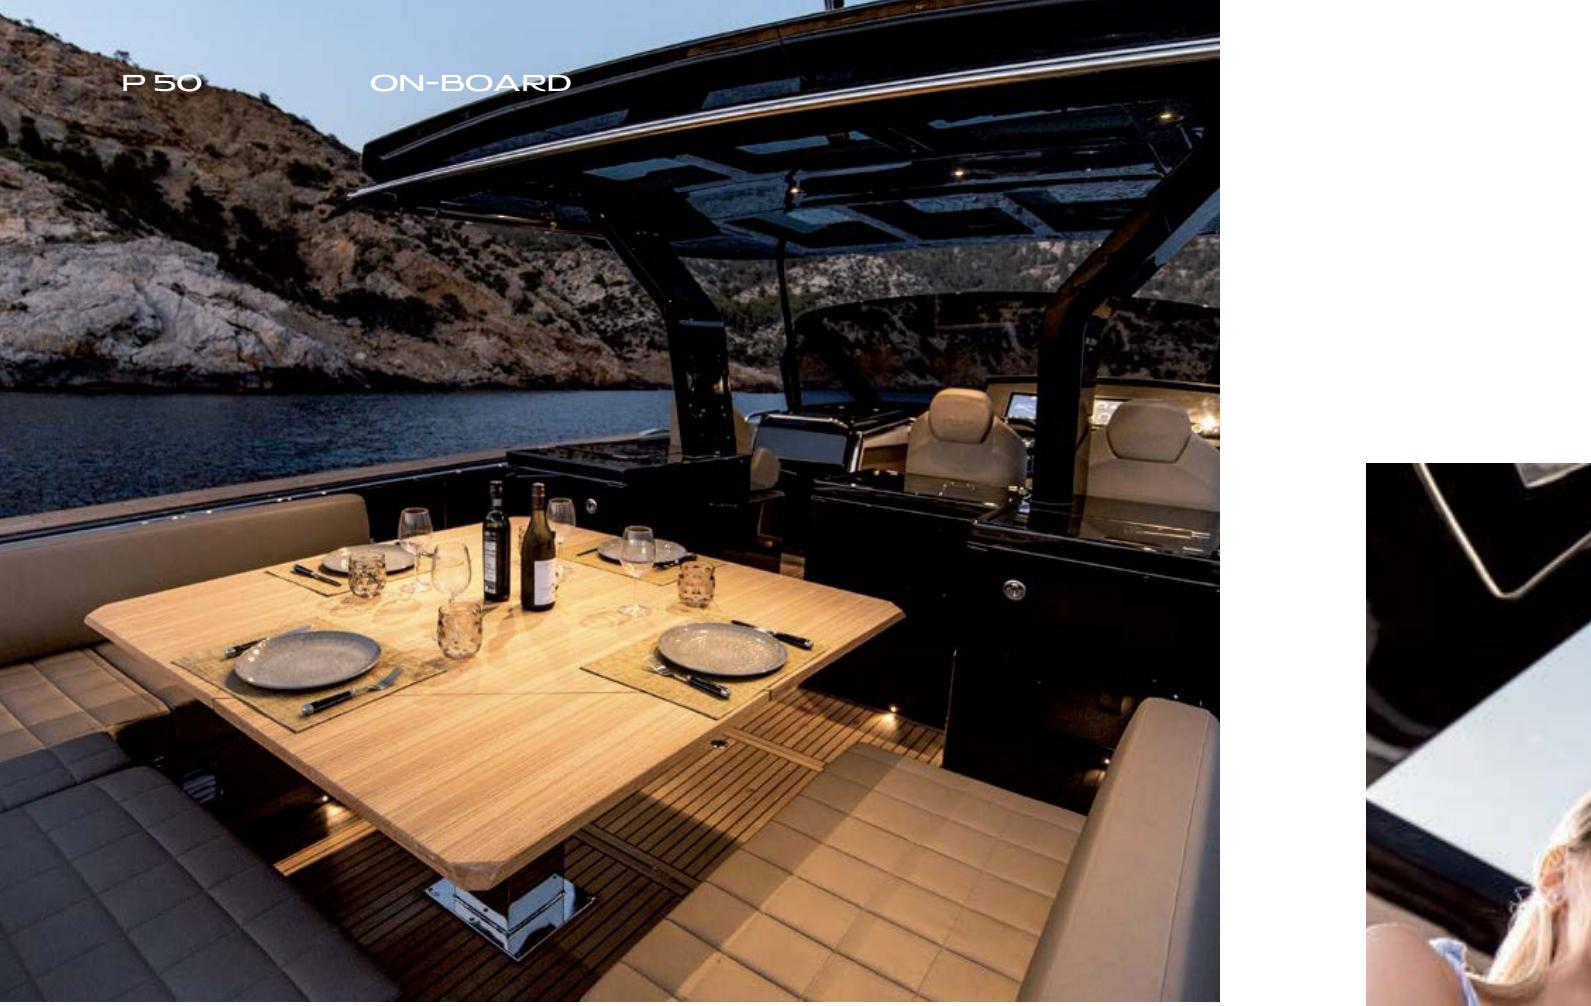

The Pardo 50 possess a perfect balance between performance and comfort. Its V-shaped hull has a variable geometry: 16° at stern and more than 50° in the forward section. This guarantees a great seakeeping and at the same time good maneuverability, allowing planning in safe and fast conditions. The convex bottoms ensure a greater shape stability.

Il Pardo 50 è un buon compromesso tra prestazioni e comfort, grazie a uno scafo a V profondo a geometria variabile. I 16° a poppa ed oltre 50° nelle sezioni prodiere gli regalano un'ottima tenuta di mare e allo stesso tempo una perfetta manovrabilità, per planare in sicurezza e velocità.
