Majesty 175

Технические характеристики

Длина, м	54.6	Двигатель	2 x 2012 hp
Ширина, м	9.6		
Осадка, м	2		
Сухой вес, кг	480000		
Запас топлива, л	60000		
Запас воды, л	9009		

Our largest project to date, the Majesty 175, is currently under construction at our facility in the Emirates. Using advanced composite materials, the Majesty 175 will be the world's largest megayacht built as a MCA-LY3 yacht over 500 GT (gross tons). Her exterior and interior design has been penned by award-winning studio Cristiano Gatto Design Team in Italy. The Majesty 175 features an infinity pool at the forward deck and a hybrid sky-lounge that can be converted to an open sun deck. Her warm and blissful interior blends seamlessly with the yacht's timeless exterior design.
